

Aneesh Cherian K
German Residence permit

Senior Data Scientist
(7+ Years' Experience)

Email: aneeshcheriank@gmail.com
Address: Sindlingen, Frankfurt am Main
Phone: +4915511223960
Sex: Male | DOB: 02.12.1984 | Nationality: Indian
LinkedIn: <https://linkedin.com/in/aneeshcheriank>
Github: <https://github.com/aneeshcheriank>

JOB SKILLS

- Implemented a **multi-agent architecture (LangChain, LangGraph)** - automating end-to-end investment process - qualitative user risk profiling to a quantitative, trade-ready portfolio.
- Automated data mapping using an NLP model (**Keras & pandas**) reducing custodian onboarding time by **50%**
- Built a neural network (**TensorFlow** & Scikit-learn) for transaction note-to-parent mapping, achieving **98%** accuracy with a **5%** transaction classification improvement
- Built a Minimum Viable Product (**RAG**) using **LangChain** and **Chroma** for PDF information retrieval, improving information retrieval efficiency
- Deployed custom multi-threaded Python packages (**Joblib**) with unit tests (**Pytest**) for AI inference in **SageMaker**, enhancing efficiency and scalability

SKILLS

Programming	Python, R
Libraries	LangGraph, LangChain, CrewAI, Pydantic, Transformers, Peft, TensorFlow, PyTorch, Keras, Scikit-Learn, OpenCV, Pandas, Numpy, SciPy, Pytest
DSL & OCR	SQL, Textract
Visualization	Seaborn, Matplotlib, Tableau, R-Shiny
IDEs	PyCharm, VS Code, Jupyter-notebook/Lab, R Studio
CI/CD	GitLab, GitHub, SonarQube
Tools	Confluence, Jira, Textract
Cloud	AWS, Sagemaker, Athena, Tesseract, s3

EXPERIENCE

Jan 2024 – Present

- Career Transition, Upskilling & Cultural Integration**
 - Dedicated intensive focus to cultural and linguistic integration, successfully advancing German language proficiency from **A1 to B1 level**.
 - Completed rigorous technical training, including the **IBM Certified AI Engineer** curriculum, mastering advanced machine learning and deep learning workflows.
 - Architected and developed production-ready open-source AI projects to practical standards:
 - Implemented a multi-agent architecture using **LangGraph** and **CrewAI** to automate an end-to-end investment risk-profiling pipeline.

Mar 2022– Dec 2023

- Lead Data Scientist**
Envestnet Asset Management Pvt Ltd, Trivandrum, India
 - Reduced document verification effort by **90%** by building a Python package (**TensorFlow, Textract, pandas, SciPy, re, PyMuPDF**) deployed in the AWS **SageMaker** pipeline
 - Developed a **99%** accurate computer vision model (**TensorFlow & OpenCV**) to identify the matching pages for document comparison
 - Spearheaded a team of 3 data scientists, automating document verification - **3 FTE** reduction
 - Fostered a productive team environment through code review, refactoring, and complexity reduction for **4** AI-powered Python packages in **GitLab**
 - Co-created a **SageMaker Studio** development infrastructure in **AWS**, empowering engineers for collaborative and rapid ML model development
 - Unveiled insights from 10 years of data through a data-driven approach (**AWS Athena, Seaborn, Matplotlib**) to assess the potential impact of automated reconciliation
- Achievement**
 - "Star of the Quarter" for automating **90%** of performance report verification with TensorFlow, **PyMuPDF**, **Tesseract** & pandas
 - Secured 2nd place in company hackathon by automating **80%** of document review with an intelligent system (**AWS Textract**)

Nov 2018 – Feb 2022	● Associate Lead Data Scientist Envestnet Asset Management Pvt Ltd, Trivandrum, India - Automated Model Precision Calculation: Reduced calculation time by 90% through a Python module (pandas, Scikit-Learn, NumPy, glob) - Optimized recommendation processing with PySpark & AWS ECS (70% faster vs. SQL) - Transformed 3 Tableau dashboards into interactive R-Shiny web applications, boosting data exploration, accessibility, and maintainability Achievement WOW award: Evaluated R Shiny as a Tableau alternative, creating a user-friendly platform usage dashboard for informed decision-making 2nd prize in a hackathon (organization level): building APIs for a data-driven retirement app (React & Flask) visualizing income & annuity recommendations
Feb 2017 – Oct 2018	● Senior Data Analyst (Senior Data Scientist) Envestnet Asset Management Pvt Ltd, Trivandrum, India - Utilized R, randomForest, caret, and dplyr to evaluate customer churn prediction feasibility, enabling proactive retention efforts - Analyzed 20k portfolios with T-statistics in Tableau, identifying underperformance and enabling timely corrective actions by compliance, mitigating potential risks - Employed R, ggplot2, and SQL for EDA, optimizing resource allocation by evaluating solution viability and prioritizing subproblems Achievement - Executive sponsorship to productize an MVP (R, dplyr, doParallel, React) for proactive monitoring of 50k portfolios, preventing potential issues & safeguarding reputation
Jun 2016 – Jan 2017	● Data Analyst (Data Scientist) Envestnet Asset Management Pvt Ltd, Trivandrum, India - Implemented dashboards using Tableau and SQL - complex data into understandable visualizations for better decision-making and improved business outcomes - Mined investment data to uncover emerging patterns and Translated findings into business reports approved by editors and disseminated to clients by the CEO Achievement - Media coverage: A report sparked industry discussion in leading US investment magazines
EDUCATION	
Aug 2014 - May 2016	● Post Graduate Diploma in Management (Finance)
Aug 2003 – Aug 2007	● Bachelor of Engineering (Electronics)
	Rajagiri Business School Cochin India MG University, Kottayam, India
CERTIFICATIONS	● - IBM Certified AI Engineer Coursera In Progress - Practical Data Science on the AWS Cloud Coursera 10/2021 - TensorFlow: Advanced Techniques Coursera 08/2021 - TensorFlow Developer Coursera 05/2021 - Deep Learning Coursera 09/2018
LANGUAGE	● English – Fluent German – Intermediate
PERSONAL SKILLS	● - Self-motivated performer, creative thinker, adaptable, & technologically competent - Empathic listener; collaborated with stakeholders to ideate solutions - Persuasive speaker; demoed MVPs to Engineering & Product Management - Confident, articulate, & professional speaking abilities (and experience) - Leadership – Managed teams of multiple resources
